

BAILEY

Upholstery Material Specifications & Color Chart *(Revised August 2011)*

The following Chart is for informational purposes only. Due to scanning, printing and computer monitors, the colors reproduced here may vary significantly from the finished product.

If the color choice is critical, or you are not familiar with the color being ordered, request a color swatch sample to be sent BEFORE placing an order. There are NO returns accepted due to color variances.

More information on the Esprit Symphony Collection of Vinyl Colors visit:

<http://www.symphonycollection.com/Products18.asp?cmd=search>

There is no online site for detailed Herculite information. Herculite is the default Upholstery and Mat material for all Mat Platform Tables and Mats.

NOTES:

January 2007: Herculite has discontinued the Red color material due to low demand. We apologize for any inconvenience.

June 2011: all EX- Series Premium Colors are now optional, and will carry a surcharge

August 2011: NEW standard color Imperial Blue is now available. This is a good substitute for Navy Blue

Naugahyde Expression Premium Vinyl Upholstery

*Advanced BeautyGard® protective top coat finish formulated to achieve the highest performance standards.
Superior tear strength and durability.
Retains a supple feel year after year.
Can be cleaned with bleach and disinfectant for clinical use.*

SPECIFICATIONS

Content: 100% PVC with 100% polyester knit backing.

Durability: Exceeds 250,000 Double Rubs for abrasion resistance (Wyzenbeek); Superior tear strength; Resistant to scuffs and scrapes.

Flame Retardancy: Formulated to meet the flammability test requirements contained in the following specifications: California fire Regulation (Bulletin 117, Sec. E); Automotive (MVSS302); BIFMA (Screen Test, Sec. 4.6. 1. 1); Boston Fire Code (BFD IX-1); CID A-A-2950-A (Federal Standard 191A test method 5903) replaces CCC-A-680a; Upholstery Requirements of FAR 25.853; Port Authority of NY and NJ.

Serviceability: Provides outstanding protection in difficult environments, including sports facilities, and educational, military, rehab and health care environments.

Contains an agent to protect against bacterial and fungal micro-organisms.

Passes ASTM E 1428-Pink Stain Test

Fading: Pigment is ultraviolet stable.

Stain resistance: Naugahyde with advanced BeautyGard is formulated for easier cleaning and disinfecting with disinfectant products containing sodium hydrochloride (common household bleach) diluted 1:10; Sulfide Stain Resistant; Oil Resistant;

Static Dissipative

Cold Crack -20

Made with Pride in the USA, with environmentally-friendly processes.

BAILEY

NASSIMI

Resilience^{SR}
ENDURING PROTECTION

ESPRIT colors are part of the Symphony Performance line of premium vinyl fabrics. They are manufactured to meet the following standards:

PERFORMANCE SPECIFICATIONS

Abrasion Resistance: 100,000+ Double Rubs per ASTM D 4157-92 Wyzenbeek / CFFA-1A
Mildew Resistant: ASTM G21-96 / CFFA-120
Anti Bacterial: AATCC 147 / CFFA300
Anti Microbial: ASTM G21 / CFFA 120
Ultra Violet Resistant: 1000 Hours ASTM G26-96 Method C / CFFA-2
Cold Crack: -20°F Federal Standard No. 191A-Method 5874 / CFFA-6
Stain Resistant: ResilienceSR Protection
Sulfide Stain Resistant

FLAMMABILITY* REQUIREMENTS

California Fire Code
Technical Bulletin No. 117, Section E
BIFMA
UFAC Class 1
MVSS 302
NFPA 260
IMO A.652 (16) 8.2
IMO A.652 (16) 8.3
May Comply with California 133 when Tested with Suitable Components
Can be Treated to Pass FAA 25.853

Resilience SR represents the latest Vinyl Protection:

Stain Resistance: With proper care, vinyl can be easily cleaned and will guard against stains.

Anti-Microbial & Anti-Bacterial Protection: Inhibits bacterial growth, as well as fungus, mold and mildew spores.

Abrasion Resistance: Provides additional wear properties and surface durability, increasing the life of the material.

Resilience SR is not visible, and does not affect the feel of the material. Resilience SR will resist repeated cleaning and wear.

Resilience SR complies with ASTM G 21 / CFFA 120 and AATCC 147 / CFFA 300 and inhibits the growth of the following:

Aspergillus Niger
Chaetomium Globosum
Aureobasidium Pullulans

Staphylococcus Aureus
Salmonella Choleraesuis

Penicillium Pinophilum
Trichoderma Virens

Klebsiella Pneumoniae
Pseudomonas Aeruginosa

The information in this guide refers to performance of Resilience in tests conducted under laboratory conditions. This information does not imply a specific guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and referenced cleaning agents.

HERCULITE®

Brand Fabric

#20 and #80 laminated and reinforced fabrics are manufactured to be Abrasion resistant, Mildew/Rot Resistant and Flame Retardant* per the following standards and testing methods:

Quality Standard MIL-C-43006
Federal Fire Standard 191-5903

*The terms Flammability, Fire Retardant and any corresponding data refer to typical performance in the specific tests indicated, and should not be construed to imply the behavior of this or any other material under actual fire conditions.
